# Vikash Institute of Technology

(Formerly Vikash College of Engineering for Women)

Approved by AICTE, New Delhi

Affiliated to BPUT, Rourkela

## Part-B (for Bachelor's degree)

Please put a (✓) in the box provided based on your opinion on how helpful your Bachelor's degree has been in acquiring the below mentioned capabilities.

#	Program Outcomes (POs)	0	1	2	3
PO1	Knowledge of mathematics, science and engineering fundamentals				
PO2	Ability to identify, formulate, review research literature, and analyze complex engineering problems				
PO3	Ability to design solutions for complex engineering problems and design system components or processes that meet the specified needs				
PO4	Design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions				
PO5	Ability of modern engineering and IT tools usage				
PO6	Apply knowledge to assess societal, health, safety, legal and cultural issues				
PO7	Understand the impact of the professional engineering solutions on environment and sustainable development.				
PO8	Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.				
PO9	Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.				
PO10	Communication skills				
PO11	Project management capability and financial knowledge				
PO12	Recognize the need for and ability to engage in independent and life-long learning

### Part-C (for postgraduate degree)

Please put a (✓) in the box provided based on your opinion on how effective your postgraduate degree has been in acquiring the below mentioned capabilities.

#	Program Outcomes (POs)	0	1	2	3
PO1	An ability to independently carry out research/investigation and development work to solve practical problems				
PO2	An ability to write and present a substantial technical report/document				
PO3	An ability to demonstrate a degree of mastery over your discipline which is at a level higher than the requirements in the undergraduate program in the same discipline.				
PO4	An ability to create, select, learn and apply appropriate techniques, resources, and modern engineering/science and IT tools, including prediction and modeling, to complex problems in your specialization with an understanding of the limitations.				
PO5	An ability to understand of group dynamics, recognize opportunities and contribute positively to collaborative-multidisciplinary scientific research involving your specialization in order to achieve common goals.				
PO6	Demonstrate a capacity for self-management and teamwork, decision-making based on open-mindedness, objectivity and rational analysis to further the learning of themselves as well as others.
